Miss Cecelia Mortimer, who recently completed her duties in the Dr. Jarvis office, left this morning for Bridgeport, Conn., where she has secured employment.

A suspension in the activities of the day was again the program of the granite industry, on account of the excessive heat. Several sheds were closed yesterday and employees were told this morning that work would be suspended until the arrival of cooler weather.

WOMEN KNOCKED DOWN.

Mrs. D. P. Hurlburt May Die of Injuries from Automobile.

Rutland, Aug. 2.—Mrs. D. P. Hurlburt, wife of Rev. Mr. Hurlburt of Northam, in Shrewsbury, was injured, probably fatally, and Mrs. R. H. Mandigo, also of Shrewsbury, was injured, less seriously, when they were run down at the corner of West street and Merchant Row in this city yesterday by a Cadillac coupe driven by Miss Ada Walker of Chippewahook, the motor car bearing the Vermont license number 17,318. Both of the injured women are at the Rutland hospital. The machine passed over Mrs. Hurlburt's chest. Mrs. Mandigo was knocked off her feet and shoved along the pavement of the street, her principal injury being a bruised ankle, where the wheel struck her. Miss Walker was alone in the machine.

Miss Walker has driven a car only a few weeks, it is said. All of the many witnesses of the accident agree that her machine was moving slowly and while statements differ as to whether or not the operator of the car blew a horn she was not subjected to harsh criticism by those who witnessed the affair, the women, who stepped from the curb directly in front of the oncoming automobile, seemingly having their attention partly fastened on bags of fruit they carried and from which one of them was removing an orange.

Mrs. Hurlburt was nearest the automobile as she walked beside her companion and was struck first. The blow knocked her down and one wheel of the Cadillac passed nearly at right angle across her chest, causing cuts and bruises on her face in addition to the more severe injuries inflicted by the weight of the machine. Mrs. Mandigo was close beside the other Shrewsbury woman and the machine did not stop until she had been swept from her feet. Although painfully bruised she was able to arise.

Dr. B. C. Powers, who happened to be within a few feet of where the women were struck, and Dr. F. H. Gebhardt, who was also nearby, immediately attended to Mrs. Hurlburt and Mrs. Mandigo and assisted in removing the former from under the car. The Stearns ambulance and the horse-drawn vehicle were summoned and both women were taken to the hospital. It was stated that Mrs. Mandigo would be able to leave the institution during the day.

Mrs. Hurlburt was attended at the hospital by Dr. William Stickney. It was found that her right collar bone was broken and her left shoulder blade shattered. Serious internal injuries are feared.

Some of the witnesses of the accident say that the two women evidently realized their danger and hesitated as if to start back towards the curb just before they were struck, the pause keeping them in the danger zone whereas they would have cleared it had they gone ahead.

The exodus of Spanish-American people from Millstone hill continues. This morning two families, comprising 12 members, left Barre for New York, where they are to join compatriots who preceded them several weeks ago. Charles Villa, whose counsel is widely sought by Spanish people in Washington county, states that a total of 600 of his countrymen expect to quit the hill because they are convinced that officers of the law are using oppressive measures.

A series of recruiting posters including several new designs recently adopted by the government have been posted in the Central Vermont station and elsewhere about town. A special appeal is made for navy recruits and the advantages of service in Uncle Sam's fleets are effectively set forth through the medium of lithographs and the printed word. Some of America's most famous artists have contributed their talent to the new series and the result is something of an improvement over the older designs.

The Ward Ice company has added an auto truck to its delivery service and the work thus far has been expedited so satisfactorily that it is probable that the entire equipment will be motorized eventually. During the hot wave the Ward employees have had to work overtime to supply the wants of many consumers and the appearance of the truck has prevented a congestion that undoubtedly would have deprived many customers of prompt deliveries. The truck is used to replenish the supplies of several horse-drawn carts about the city, thus dispensing with numerous hauls necessary when each team had to return to the ice house as soon as its supply was exhausted.

Samuel Henderson of the Arcade block and George Thompson of Orange street left the city to-day for Montreal, P. Q., whence they will proceed to Alberta, Canada, where they expect to be employed in the harvest. If the wheat lands appeal to them they may take up a piece of government land. Mr. Henderson is one of the registrants of June 5 and therefore eligible to the draft. Consequently he was in something of a quandary as to his status in crossing the line until he communicated with the office of Brig. Gen. Crowder in Washington. The reply to his letter stated that he would be permitted to go to Alberta, although he was to keep in touch with officials this side of the border.

Among the guests arriving at Hotel Barre yesterday and to-day were the following people: Mr. and Mrs. B. H. Farr, William P. Bowman of Wyoming, Pa., O. F. Farr of Chicago, Ill., E. O. The scribe, who is also one of Williamstown's ex-postmasters, was lately presented with a fine fountain pen by the rural carriers connected with the office. The scribe was so much surprised that for a time he was unable to express himself except by signs. After a while he recovered his senses and power of speech and voiced his thanks in a few feeble words, saying that he would wear the pen a part of the time next to his heart and that he hoped the day was far distant that would require him to use it to pen their obituaries. This made all the party so thirsty that it was decided to go into Williams' store and drown their sorrows with a cool drink.

Humoring People Isn't Pleasant.

A writer in the August Woman's Home Companion says:

"Humoring a man" sounds like a pleasant and comfortable thing, but when one links humoring with the question of who makes the money, it does not seem very flattering to the humor or the humoree. And what a lamentable sight is that of the humoree, what deep inequality it implies and what an absence of any real respect or understanding between two people in whose lives humoring is a part of the daily routine. When the one to be humored is a woman, it may mean that a man has been forced into the craven part of doing anything for the sake of peace. There are few concessions some men will not make to avoid a domestic storm. Some unfortunate men there are who even give up vital friendships, legitimate forms of recreation, and even their own individualities in this unworthy cause."
